Summary

Backend Engineer with production Django experience building scalable systems at a YC-backed startup (AlgoUniversity).
LeetCode Knight — top 5.23% globally, 500+ problems solved. AWS Certified. Comfortable shipping fast in remote teams.

Education

VIT Bhopal University

B.Tech in Computer Science CGPA: **9.42**

September 2023 – May 2027

Bhopal, MP, India

St. Gregorios Sr. Sec. School

Class 12: **94.6%** — Class 10: **94.0%**

April 2018 – March 2023

Udaipur, Rajasthan, India

Technical Skills

- **Languages:** Python, C++, Java, Dart
- **Frameworks & Tools:** Django, Flask, Flutter, Docker, Git, GitHub
- **Databases & Cloud:** MySQL, SQL, PostgreSQL, SQLite, Firebase, AWS, GitHub Actions (CI/CD)
- **Concepts:** Data Structures & Algorithms, REST APIs, OOP

Coding Profiles & Achievements

- LeetCode **Knight** — Contest Rating: **1874** — Top 5.23% Globally — **500+** DSA Problems Solved
- Selected among **Top 1.4%** of 40,000+ applicants for AlgoUniversity Accelerator
- Achieved **Top 3** rank in Class XII (CBSE, 2023) with **94.6%** in PCM stream

Work Experience

AlgoUniversity (YC S21)

May 2025 – July 2025

SWE Co-Op Intern

Remote

- Built a scalable **Online Judge platform** (code-forge.vaibhavkumar.me) using **Django**, **HTML/CSS**, and **SQLite3** — designed relational schemas for submissions, users, and test cases; containerized with **Docker** and deployed on **AWS EC2**.
- Engineered a secure multi-language code execution pipeline with routing and verdict-decision logic using Python's **subprocess** module and **Docker-based isolation** - supporting Python, C++ and Java.
- Introduced **real-time output evaluation**, role-based access control (RBAC), **reducing manual grading time by 80%**.
- Streamlined **CI/CD pipelines** with **GitHub Actions** and **Docker** for continuous testing and deployment; boosted deployment frequency by **40%** through automated testing and rollouts.

Madhya Pradesh Police

October 2024 – Present

Student Intern (Part-time)

Bhopal, India

- Selected for SIP 2025; collaborated with the Cyber Crime Cell, Forensic Unit, and Dial 100 HQ to observe real-time tools and strategies used in cybercrime investigations.
- Delivered cybersecurity awareness sessions to 300+ students and faculty at schools like Delhi World Public School, covering phishing, SIM swap, ATM fraud, and safe online behavior.
- Participated in open-house sessions with senior officials (IPS, AIGP), researched 10+ digital threats, and contributed to posters, surveys, and outreach campaigns promoting public digital safety.

Projects

Brew Crew – Reactive Cloud-Based Application

December 2025

Tech Stack: Flutter, Firebase Auth, Cloud Firestore, Provider, Streams

GitHub

- Architected a cloud-backed Flutter app with Firebase Authentication and real-time Firestore streams, keeping UI and data synchronized without manual refresh.
- Implemented layered state management and event-driven architecture using **StreamProvider**, improving UI responsiveness and backend synchronization.

HridayVayu – Smart Asthma Care System

February 2025

Tech Stack: Python (Flask), Machine Learning, Sensor Integration

- Collaborated in developing an ML-based asthma prediction system integrating sensor data to identify early-stage risk patterns with **87% accuracy**.
- Implemented a real-time alerting and analytics pipeline to surface high-risk conditions, reducing average detection latency by **30%**.

CyberBuddy – AI Cybersecurity Chrome Extension

February 2025

Tech Stack: Python, Google Gemini API, Chrome Extension API, ML, HTML/CSS

GitHub

- Built a phishing detection browser extension that analyzes URLs in real time using an AI-based classification pipeline, using Google Gemini API.

Certifications

- | | |
|--|----------------------|
| • AWS - Certified Cloud Practitioner (CLF-C02) - Score: 837/1000 | February 2026 |
| • Oracle - Java Certified Foundations Associate | July 2025 |
| • IBM - SQL and Relational Databases 101, Python 101 for Data Science | March 2025 |

Co-Curricular

Cisco Community, VIT Bhopal

November 2024 – March 2026

Core Technical Member

- Organized hands-on workshops and collaborated in multi-functional development teams.
